OPINION

Seize the moment

A Daily Mail article from the U.K. last week, titled "The world is burning," was a wake-up call for the world's leaders. It was a call to action, a call to the world's leaders to take action on climate change.

Editorial

It is a moment of opportunity, a moment of crisis, a moment of choice. It is a moment when the world's leaders can choose to take action on climate change, or they can choose to do nothing. The choice is theirs, and it is up to them to make it.

The world's leaders have a choice to make. They can choose to take action on climate change, or they can choose to do nothing. The choice is theirs, and it is up to them to make it.
